

PERMAGRAPHICS

FIRE PROTECTION INDUSTRY

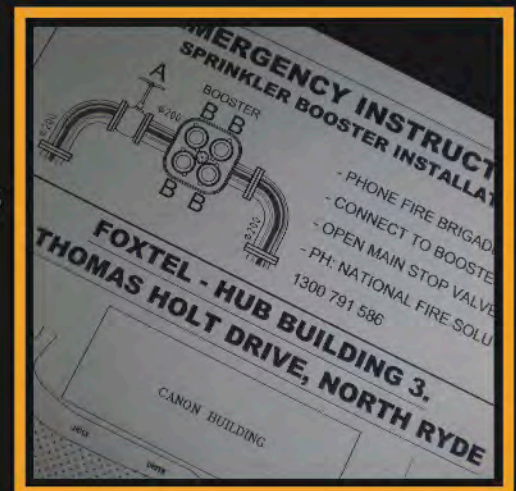

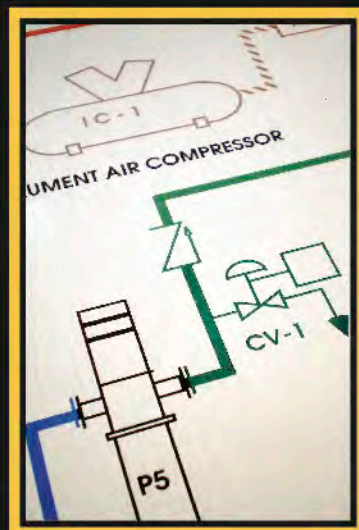

Permagraphics is a leading supplier of blockplans & evacuation panels for specialist fire protection and construction companies.

Blockplans & Evacuation Panels

Permagraphics manufacture blockplans in a range of material; laminates, aluminum or stainless steel. They are also available as digital prints, engraved, etched or photo anodised in either colour or mono. Permagraphics also provides full design and artwork services.

Industrial Labels & Signs

Permagraphics manufacture custom made signs, warning labels, control panels, facias and mimic panels for the fire protection industry.

Permagraphics also produce a range of industrial identification, warning, service tags and labels; available in stainless steel, aluminium, brass and laminated plastics (commonly referred to as traffolyte).

We offer high quality workmanship and quick response service to take away the hassles. We can take care of the design and artwork to make life easy.
